MEMORANDUM FOR RECORD 25X1A9a

SUBJECT: Termination of [REDACTED]

25X1A9a

25X1A9a 1. Effective as of July 12, 1956 [REDACTED] terminated his association with Project Acquestone. On 17 July [REDACTED] met 25X1A9a with [REDACTED] of the Office of the Project Comptroller and final settlement was made with [REDACTED] for his July salary, accrued leave and travel expenses from Washington to Los Angeles as agreed upon by the Project Director of Personnel. In addition, [REDACTED] of 25X1A9a the Project Security Office had an exit interview and debriefing with [REDACTED]

25X1A9a 2. The subject appeared to be quite well satisfied with the treatment that he received from the Project but was a little disgruntled in the length of time which was taken to accomplish his reinstatement into the Air Force.

25X1A9a 3. It is my recommendation that in future termination cases such as this an attempt be made by Project personnel people to see that Air Force has accomplished certain steps necessary for reinstatement before the individual involved has been summoned to Washington. We were informed by Air Force personnel people that [REDACTED] should 25X1A9a be in D. C. on June 4. This means that a period of approximately one and one half months lapsed before final action was effected. This sort of thing should be avoided, if possible, in the future.
